

Dear Hiring Manager,

I am writing to express my strong interest in the Senior React Developer position. With over six years of experience in software development, including four years in a senior role, I have been looking for an opportunity to apply my expertise in React and TypeScript within a dynamic team environment.

In my previous role as a Senior Software Developer at Tech Corp, I led a team of five developers in building modern web applications using React and TypeScript. My hands-on experience with these technologies, combined with my leadership skills, resulted in a 40% improvement in system performance. I am well-versed in modern frontend frameworks and have a proven track record of delivering high-quality solutions.

My background includes collaborating with cross-functional teams and working with various technologies such as Node.js, PostgreSQL, and AWS. I am confident that my technical skills and team leadership experience align perfectly with your requirements.

I am excited about the possibility of contributing to your team and am eager to discuss how my experience can benefit your organization.

Sincerely,

John Doe
