ATS Optimization Notes (For Your Reference, Do Not Include In Final Resume)

* **Keywords Incorporated:** The resume directly includes critical keywords from the job description: "Senior React Developer," "TypeScript," "modern frontend frameworks," and "team leadership experience."

* **Quantifiable Achievements:** All major bullet points feature metrics (e.g., 40% performance improvement, 25% bug reduction) to demonstrate impact, which is highly valued by both ATS and hiring managers.

* **Action Verbs:** Strong verbs like "Spearheaded," "Architected," "Engineered," and "Mentored" are used to start each bullet point, conveying initiative and expertise.

* **Clean Formatting:** The use of clear section headers (###), bullet points, and consistent formatting ensures easy parsing by ATS software while remaining highly readable for humans.

* **Tailored Content:** The Professional Summary and experience bullets are specifically crafted to align with the requirements of a Senior React Developer role, emphasizing React, TypeScript, and leadership.
