

****John Doe****

San Francisco, CA | (555) 123-4567 | john.doe@example.com | [LinkedIn Profile URL] | [Portfolio/
GitHub URL]

****Professional Summary****

Accomplished Senior Software Engineer with 5+ years of expertise in designing and developing high-performance, scalable web applications. Proven leadership in guiding cross-functional teams to success with a strong command of the ****React**** ecosystem, ****TypeScript****, and modern frontend frameworks. A dedicated mentor passionate about fostering talent, improving code quality, and driving projects from conception to deployment with measurable results.

****Technical Skills****

- * ****Frontend:**** React, TypeScript, JavaScript (ES6+), Next.js, Redux, HTML5, CSS3, Jest, Webpack, Vite
- * ****Backend & APIs:**** Node.js, Express.js, RESTful APIs, GraphQL
- * ****Databases & Cloud:**** PostgreSQL, MongoDB, Redis, AWS (EC2, S3, Lambda)
- * ****Tools & Methods:**** Git, Docker, CI/CD Pipelines, Agile/Scrum, JIRA, Figma

****Professional Experience****

****TechCorp Inc.**** | San Francisco, CA

****Senior Frontend Developer**** | March 2020 – Present

- * Spearheaded a team of 4 developers in the end-to-end development of responsive and accessible ****React****-based web applications utilizing ****TypeScript**** for enhanced code reliability and maintainability.
- * Architected and led the implementation of a reusable ****React component library****, standardizing development practices and ****reducing feature development time by 30%**** across projects.
- * Championed a culture of quality by instituting rigorous code review processes and mentoring 3 junior frontend developers, elevating team productivity and coding standards.
- * Engineered significant performance optimizations, including code splitting and lazy loading, which ****decreased application load times by 40%**** and improved user experience scores.
- * Collaborated closely with UX/UI designers and product managers in an Agile environment to translate complex requirements into intuitive, user-centric interfaces.

****StartupXYZ**** | San Francisco, CA

****Software Engineer**** | June 2018 – March 2020

- * Developed and maintained full-stack applications using ****React****, ****Node.js****, and ****PostgreSQL****, delivering robust features on tight deadlines.
- * Designed and built secure, scalable ****RESTful APIs**** to support frontend functionality and integrate with various third-party services.
- * Implemented comprehensive automated testing strategies with Jest and React Testing Library, ****increasing test coverage by 60%**** and significantly reducing production bugs.
- * Actively participated in all Agile ceremonies, including sprint planning, retrospectives, and daily

stand-ups, contributing to a collaborative and efficient team environment.

****Projects****

- * ****E-commerce Platform:**** Led the frontend development of a high-traffic online store using ****React**** and ****Next.js**** for server-side rendering, improving SEO and initial page load performance.
- * ****Task Management App:**** Built a real-time collaborative application with a ****React**** frontend and ****Node.js**** backend, featuring WebSocket connections for live updates.

****Education****

****Bachelor of Science in Computer Science****

University of California, Berkeley | 2014 – 2018

****Optimization Notes (For Your Reference):****

- * ****Keywords:**** The resume now prominently features keywords from the job description like "Senior React Developer," "TypeScript," "modern frontend frameworks," "team leadership," and "mentoring skills" directly in the summary and experience bullets.
- * ****Quantifiable Achievements:**** All key accomplishments include metrics (e.g., "reduced development time by 30%," "decreased load times by 40%"), which are highly valued by both ATS systems and hiring managers.
- * ****Action Verbs:**** Uses strong verbs like "Spearheaded," "Architected," "Championed," "Engineered," and "Designed" to convey leadership and initiative.
- * ****ATS-Friendly Format:**** Uses a clean, standard layout with clear section headers (``###``), bullet points, and avoids columns, tables, or graphics that can confuse parsing software.
- * ****Tailored Content:**** The professional summary and work experience are specifically crafted to align with the requirements of a Senior React Developer role, emphasizing leadership, React/TypeScript expertise, and mentoring.
