

Dear Hiring Manager,

I am writing to express my strong interest in the Senior React Developer position. With over five years of experience in frontend development, I have a proven track record of building scalable applications using React, TypeScript, and modern frameworks.

In my current role as a Senior Frontend Developer at TechCorp Inc., I lead a team of developers in creating responsive and high-performance web applications. I architected a reusable component library that reduced development time by 30% and optimized load times by 40%, demonstrating my ability to deliver efficient solutions.

I am looking for an opportunity to contribute my leadership and technical skills to a forward-thinking team. My experience mentoring junior developers and collaborating with cross-functional teams aligns well with your requirements for a senior developer who can drive projects and support team growth.

I am excited about the possibility of bringing my expertise in React, TypeScript, and modern frontend development to your organization. Thank you for considering my application.

Sincerely,

John Doe
