****Professional Summary****

Accomplished Senior Software Engineer with 5+ years of expertise in developing high-performance, scalable web applications using ****React****, ****TypeScript****, and modern frontend frameworks. Proven leadership in guiding cross-functional teams, mentoring junior developers, and driving projects from conception to deployment. Demonstrated success in optimizing application performance, enhancing code quality, and delivering user-centric solutions aligned with business objectives.

****Technical Skills****

- ****Frontend:**** React, TypeScript, JavaScript (ES6+), HTML5, CSS3, Redux, Next.js, D3.js
- ****Backend:**** Node.js, Express.js, Python, REST APIs, GraphQL
- ****Databases:** PostgreSQL, MongoDB, Redis**
- ****Tools & Platforms:**** Git, Docker, AWS, CI/CD pipelines, Jest, Webpack, Agile/Scrum

****Professional Experience****

****Senior Frontend Developer**** | TechCorp Inc., San Francisco, CA | March 2020 – Present

- Led a team of 4 developers in designing and building responsive, scalable web applications using ****React**** and ****TypeScript****, ensuring adherence to best practices and project timelines.
- Architected a reusable ****component library**** that streamlined development workflows and reduced feature delivery time by ****30%****.
- Collaborated closely with UX/UI designers to translate wireframes into intuitive, high-performance user interfaces.
- Mentored ****3 junior developers**** through code reviews, pair programming, and technical training, improving team productivity and code quality.
- Optimized frontend performance, resulting in a ****40% improvement in load times**** and enhanced user experience.

****Software Engineer**** | StartupXYZ, San Francisco, CA | June 2018 – March 2020

- Developed full-stack applications using ****React****, ****Node.js****, and ****PostgreSQL****, delivering robust solutions for end-users.
- Implemented comprehensive ****automated testing**** strategies using Jest, increasing code coverage by ****25%**** and reducing production bugs.
- Designed and built ****RESTful APIs**** and integrated third-party services to extend application functionality.
- Participated in ****Agile**** processes, including sprint planning, daily stand-ups, and retrospectives, ensuring timely project delivery.

Projects

E-commerce Platform

- Engineered a full-featured online shopping platform using **React** and **Node.js**, enabling seamless user experiences and secure payment processing.

Task Management App

- Developed a collaborative project management tool with real-time updates using **React** and **WebSockets**, improving team productivity.

Data Visualization Dashboard

- Created interactive, data-driven visualizations using **D3.js** and **TypeScript**, providing actionable insights to stakeholders.

Education

Bachelor of Science in Computer Science

University of California, Berkeley | 2014 – 2018

Certifications

- [Optional: Add relevant certifications, e.g., AWS Certified Developer, React/TypeScript certifications]
