

Dear Hiring Manager,

I am writing to express my strong interest in the Senior React Developer position. With over five years of experience in frontend development, I have a proven track record of building scalable applications using React and TypeScript. My background aligns perfectly with your requirements for a developer skilled in modern frameworks and team leadership.

In my current role as a Senior Frontend Developer at TechCorp Inc., I lead a team of four developers in creating responsive web applications. I architected a component library that reduced development time by 30% and optimized performance to achieve 40% faster load times. My experience mentoring junior developers and conducting code reviews has strengthened my ability to foster collaborative and efficient teams.

I am looking for an opportunity to contribute my expertise in React, TypeScript, and modern frontend development to your organization. I am confident that my technical skills and leadership experience make me an ideal candidate for this senior role.

Thank you for considering my application. I look forward to discussing how my background can benefit your team.

Sincerely,

John Doe
