

Naveen Guru

singhnaveen360@gmail.com | -110014 9871 | years of experience in the data analytics field Expertise in data migration, data

PROFESSIONAL SUMMARY

Senior Software Engineer with 4 years of experience in full-stack development and data engineering. Proven expertise in designing, developing, and deploying scalable software solutions and data pipelines. Proficient in JavaScript, Python, SQL, and cloud platforms (AWS). A strong leader experienced in mentoring junior developers and leading technical projects in agile environments.

TECHNICAL SKILLS

- * **Programming Languages:** JavaScript, Python, Java, SQL
- * **Frontend:** HTML, CSS, JSON, XML
- * **Backend Frameworks:** Node.js, Django, Spring Boot
- * **Databases:** PostgreSQL, MySQL, Clickhouse, DB2, MS Access
- * **Cloud & DevOps:** AWS, Informatica (IICS, CDI-PC), CI/CD, Linux, Ubuntu
- * **Tools:** Git, Jira, Docker (Putty, WinSCP), Postman, Visual Studio Code, PyCharm, Spring Tool Suite

PROFESSIONAL EXPERIENCE

Data Specialist | WIPRO DOP – Noida, India | Dec 2021 – Present

- * Led the development and deployment of data integration solutions by coding complex maps in Informatica 10.5, Informatica CDI-PC, and IICS, ensuring alignment with client requirements.
- * Designed and optimized database schemas and queries for IBM Mainframe DB2 and PostgreSQL, enhancing data retrieval efficiency and performance.
- * Developed and maintained data validation and testing protocols using advanced SQL, MS Access, and Excel, reducing data discrepancies.
- * Utilized Jira for comprehensive project tracking and task allocation, improving team workflow and project transparency.
- * Mentored and trained 3 new colleagues on project processes and technologies, accelerating team onboarding and productivity.
- * Recognized with a formal excellence award from US-based leadership for outstanding work ethic and project performance.

Data Engineer | APPLICATE AI (Salescode.ai) – Gurugram, India | Dec 2019 – Dec 2021

- * Engineered and maintained backend services and RESTful APIs using Java and Spring Tool Suite 4 for project deployment.
- * Executed a critical database migration project for major clients (SHELL, Mars), ensuring data integrity and system scalability.
- * Developed and optimized complex stored procedures in MySQL and Clickhouse to meet specific project requirements.
- * Collaborated with cross-functional teams using Slack and agile methodologies to track work and deploy features efficiently.
- * Provided technical guidance and training to 4 new team members, clarifying project requirements and improving team output.

PROJECTS

****Machine Learning Project**** | University Project | 2019

- * Developed a predictive model using Python, Keras, and TensorFlow, implementing machine learning algorithms for object recognition.

****Motivational Quotes Website**** | Individual Project | 2020

- * Designed and built a full-stack website using Django, Python, HTML, JavaScript, and CSS, demonstrating end-to-end development capabilities.

EDUCATION

****B.Tech, Computer Science & Engineering**** | Amity University – Noida, Uttar Pradesh, India | 2015 – 2019
